**Humak offers Erasmus Exchange Programme courses in the following fields:**

### **Community Education**

- Focus on community educators' different work duties and work fields, which are NGO and youth work, adventure education and workplace community development.

### **Sign Language Interpretation**

- Focusing on Finnish Sign Language and interpreting practices. The programme emphasizes language acquisition, cultural understanding and interpreting skills, preparing students for professional roles in various settings.
- Studies are conducted in Finnish sign language but instructions and assignments are also given in English.

### **Cultural Management**

- Focus on production and project management and entrepreneurship in creative industries.

### **To whom?**

Erasmus+ Exchange programme is for students studying at Humak's partner institutions.

### **Studying at Humak**

Studying at a university of applied sciences is practical and closely tied to the working life.

The curriculum combines contact instruction, online learning, group projects and independent study. This blended approach ensures flexibility and caters to diverse learning preferences.
